CONTENTS OF VOLUME 64, 1978

Fascicle 1

1 BLOTTA I., MEO P., GIULIANO M.C., BELLOCCI M., RITROVATO R., BELLOCCHI R., MULLER A., NERI G., CASTELLI L.: Behavior of a cell line derived from a mouse submaxillary adenocarcinoma during the initial 480 days in vitro

15 LAMBERTENGHI-DELILIERS G., ZANON P.L., POZZOLI E.F., BELLINI O., PRAGA C.: Ultrastructural alterations of atrial myocardium induced by adriamycin in chronically treated animals

25 CARUSO C., BENVEGNA S., PALMERI P., CILLARI E.: Effect of peptichemio upon localization of injected radiolabelled lymphocytes in the lymphatic organs of antigen-stimulated mice

33 DE PALO G.M., DOCI R., GASPARINI M., FOSSATI-BELLANI F.: Malignant ovarian neoplasms in childhood

45 ROTH A., KOLARIĆ K., DOMINIS M.: Histologic and cytologic liver changes in 120 patients with malignant lymphomas

55 PIZZOLO G., SAVARIN T., MOLINO A.M., AMBROSETTI A., TODESCHINI G., VETTORE L.: The diagnostic value of serum copper levels and other hematochemical parameters in malignancies

63 STUBBE TEGLBJÆRG P., SVENDSEN V.: Lymphangiomyoma of the thoracic duct with previously undescribed epithelial tubules

71 MICHEAU C.: Pseudo-malignant necrotic histiocytosis of lymph nodes in children. A report of 2 cases

77 CEFIS F., FORNI A., CARINELLI S., CANGINI L.: Significance of ascitic fluid and peritoneal washing cytology in ovarian tumor diagnosis

89 KOLARIĆ K., ROTH A., FUSS V.: Combination chemotherapy with 1-methyl--1-nitrosourea and cyclophosphamide in metastatic melanoma

95 CARINELLI S.G., PRAT J., ROBBOY S.J.: Blue nevus of the cervix

99 UPADHYAY R.R., BAKHTAVAR F., GHAISARZADEH M., TILABI J.: Carcinogenic and irritant factors of « Euphorbia esula L. » latex

Fascicle 2

103 SQUARTINI F., DI COSCIO G.: Bioactivity of male (sperm transmitted) mouse mammary tumor virus as influenced by donor, recipient and age at treatment

115 CASAZZA A. M., PRATESI G., GIULIANI F., FORMELLI F., DI MARCO A.: Enhancement of the antitumor activity of adriamycin by Tween 80

131 Fiala S., Pragani B., Reuber M.D.: Inhibition of 3'-methyl-4-dimethylaminoazobenzene-induced hepatocarcinogenesis by portacaval shunt

143 Robustelli Della Cuna G., Calciati A., Bernardo Strada M.R., Bumma C., Campio L.: High dose medroxyprogesterone acetate (MPA) treatment in metastatic carcinoma of the breast: A dose response evaluation

151 Azzolina L.S., Fracastoro G., Pisarri N., Lievore R., Cordiano C., Tridente G.: Carcinoembryonic antigen and cancer: A comparative study

161 Nenci I., Beccati M.D., Arslan Pagnini C.: Estrogen receptors and post-receptor markers in human breast cancer: A reappraisal

175 Lambertenghi-Deliliers G., Castagnone D., Porro F., Cortelezzi A.: Osteolysis in chronic myeloid leukemia

183 Cionini L., Ciatto S., Pirtoli L., Santoni R., Cappellini M.: Radiotherapy of seminoma of the testis. Report on 129 patients

193 Volterrani F., Barni S., Chiesa F., Uslenghi C.: Failures (cause and time) of radiotherapy in oral cancer

205 Pilotti S., Alasio L.: Cytopathologic manifestation of uterine leiomyosarcoma. Case report

211 Rilke F., Carbone A., Musumeci R., Pilotti S., De Lena M., Bonadonna G.: Malignant histiocytosis: A clinicopathologic study of 18 consecutive cases

229 Svejda J., Mechl Z., Sopkova B.: Cytology in the diagnosis of malignant melanoma

Fascicle 3

233 Veronesi U., Costa A.: Problems with the detection of breast cancer

241 Valagussa P., Bonadonna G., Veronesi U.: Patterns of relapse and survival in operable breast carcinoma with positive and negative axillary nodes

259 Di Fronzo G., Bertuzzi A., Ronchi E.: An improved criterion for the evaluation of estrogen receptor binding data in human breast cancer

267 Bozzetti F., Galante E., Costa A.: Breast cancer in a patient under Levodopa treatment

273 W.H.O. Collaborating Centres for Evaluation of Methods of Diagnosis and Treatment of Melanoma: Stage I melanoma of the limbs: Assessment of prognosis by levels of invasion and maximum thickness

285 Blinova G.A., Movchan V.I.: Comparative aspects of pigmented nevi in children, youths and adults

295 Volterrani F., Vona S., Barni S., Musumeci R.: Prognostic value of lymphography in cervical cancer

305 Schulz U., Bamberg M.: Relationship between curative radiation therapy of paravertebral tumors and the incidence of radiation myelitis

313 LINDBERG R.D., FLETCHER G.H.: The role of irradiation in the management of head and neck cancer: Analysis of results and causes of failure

327 HOERNI B., MEUGÉ C., EGHBALI H., DE MASCAREL A., DURAND M., HOERNI-SIMON G., BRUNET R., CHAUVERGNE J., LAGARDE C.: Malignant lymphoplasmacytoid lymphomas. Clinical and evolutive data

335 CARLEVARO C., ROSSI G.A., CERRI E., PELUCCO D.: Cytogenetic study of pleural effusions

Fascicle 4

345 VERONESI U., MARTINO G.: Can life be the same after cancer treatment?

353 SCELSI R., SCELSI M., POGGI P., MOSCA L.: Bacillus of Calmette and Guérin and 7,12-dimethylbenz(α)-anthracene carcinogenesis in mice

361 DUMITRESCU L., CIOLOCA L., ENCUT I.: Morphological and cytogenetical changes in HR-18 rat ascites cells after in vitro 3-[bis(2-chloroethyl)amino]--4-methylbenzoic acid (NSC-146171; IOB-82) administration

371 COLNAGHI M.I., MÉNARD S., PIEROTTI M.A.: In vivo resistance and in vitro cellular reactivity against lymphosarcoma cells in immunized mice

383 GINELLI E., GIANNI A.M., CORNEO G.: Homology between cellular repeated nucleotide sequences and a murine leukemia viral genome

389 CECCHINI S., BONARDI L., CIPPARRONE G., OTTAVIANO M., PIERONI G.: Contribution of cytology, colposcopy, target biopsy and conization to the early diagnosis of precancerous and cancerous lesions of the cervix uteri

399 MARCZYNSKA A., ADAMCZYK B., MEDVEY W.: Gross body composition changes in patients with cancer of the uterine cervix treated with irradiation

407 BOZZETTI F.: Parenteral hyperalimentation in patients with gastrointestinal cancer

419 RUSSO A., GRASSO G., SANFILIPPO G., GIANNONE G., GUERRERA G.: Gastroscopy and directed biopsy in the diagnosis of primary gastric lymphomas. Report of 16 personal cases

429 VONA S., BERGONZI L., MUSUMECI R., VOLTERRANI F.: Clinical results of lymphography in cancer of the uterine cervix. A retrospective study of 542 consecutive, unselected patients

437 OREFICE S., CASCINELLI N., VAGLINI M., VERONESI U.: Intravenous administration of BCG in advanced melanoma patients

Fascicle 5

455 TERRACINI B., ANGLESIO E., PANERO M., VINEIS P.: Descriptive epidemiology of cancer of the larynx in the province of Torino, Italy

457 LEONARDO E., PALESTRO G.: Intracellular Ig identification on paraffin-embedded solitary plasmacytoid proliferation: A routine method to define the biological nature of plasma cells

463 Siracká E., Pappová N.: Cytokinetic analysis at various ages of an ascites tumor after radiation

471 Migliori E., Sani S., Squartini F.: Possible histologic markers for early and late stages of breast cancer

479 Cappellini M., Ciatto S., Maltoni G.: Mass screening for early breast cancer detection

487 Mantovani G., Maxia G., Caporelli S., Cossu F., Sestu M.: Response to neoplastic antigens in human oncology: Assessment and results of LIF (leucocyte inhibitory factor) test in breast cancer patients

495 Paszko Z., Padzik H., Dabska M., Pienkowska F.: Estrogen receptor in human breast cancer in relation to tumor morphology and endocrine therapy

507 Bozzetti F., Leo E., Barbieri A., Dalla Costa C.: Protein loss after radical mastectomy as a cause of postoperative hypoalbuminemia

513 Micheau C., Rilke F., Pilotti S.: Proposal for a new histopathological classification of the carcinomas of the nasopharynx

519 Guzzon A., Kenda R., Bonadonna G., Pilotti S.: Bronchial involvement by Hodgkin disease

529 Vaglini M., Bozzetti F., Viganotti G.: Malignant pleural mesothelioma

535 Pilotti S., Carbone A., Lombardi L., Tavolato C., Rilke F.: Hairy cell leukemia: Enzyme-histochemical and ultrastructural investigation of one case

549 Della Torre G., Pilotti S., de Palo G.M., Rilke F.: Viral particles in cervical condylomatous lesions

Fascicle 6

555 Dalla Palma P., Fassina A.S.: Histopathology and epidemiology of breast cancer in the Padua area

565 Bianchi C., Grandi G., Di Bonito L.: Diffuse pleural mesothelioma in Trieste. A survey based on autopsy cases

571 Reuber M.D.: Carcinomas of the liver in Osborne-Mendel rats ingesting DDT

579 Miranda M., Ventura T., Iorio L., Ragnelli A.M., Martana C., Di Vito L.: 6-phosphogluconate dehydrogenase, glucose-6-phosphate dehydrogenase, glucose-6-phosphate isomerase, and hexokinase activity ratios in some human tumor cytosols

587 Colnaghi M.I., Regazzoni M., Boiocchi M., Galante E., Di Re F.: Fc receptor-like structures on in vitro-cultured human ovarian tumor cells

597 Chiarelli S.M., De Marchi A., Piazza M.: Malignant Brenner tumor of the ovary: Case report with a review of the literature

607 Mastrangelo R., Romanini A., Cellini N., Parenti D., De Renzis C., Riccardi R., Cimatti G., Malandrino R.: Intermittent intrathecal methotrexate and fractional radiation (M-IMFRA) plus chemotherapy in childhood leukemia

613 Lichtiger B., Trujillo J.M., Fischer H.E., Cox I.S.: T and B cell populations in platelet donors

621 Lise M., Nitti D., Fiorentino M., Ricci G., Grigoletto E., Orsini A., Fosser V., Rossi C.R.: The value and present indications of staging laparotomy in Hodgkin's disease

631 Heusinkveld R.S., Feen A.E., Jones S.E.: Comprehensive radiotherapy for advanced Hodgkin's disease refractory to chemotherapy

639 Martinazzi M., Palatini M.: A casual finding of primary splenic Hodgkin's disease in a case of traumatic rupture of the spleen

645 Coscia Porrazzi L., Quarto F., De Gregorio A.: Malignant lymphoma, Burkitt's type: Histologic report of two cases in Italy

649 Doci R., Pilotti S., Costa A., Semeraro G., Cascinelli N.: Thyroid cancer in childhood

659 Morrica B., Perani P.C.: The role of radiotherapy in the treatment of metastases at the tracheostoma in cancer of the larynx

665 Marmont A.M.: The cytomorphological diagnosis of malignant histiocytosis

W.H.O. COLLABORATING CENTRES FOR EVALUATION OF METHODS OF DIAGNOSIS AND TREATMENT OF MELANOMA: Stage I melanoma of the limbs: Assessment of prognosis by levels of invasion and maximum thickness, 273

SUBJECT INDEX

Adriamycin, Ultrastructural alterations of atrial myocardium induced by — in chronically treated animals, 15
——, Enhancement of the antitumor activity of — by Tween 80, 115
Alimentation, Parenteral hyperalimentation in patients with gastrointestinal cancer, 407
BCG, — and 7,12-dimethylbenz(α)-anthracene carcinogenesis in mice, 353
——, Intravenous administration of — in advanced melanoma patients, 437
Biopsy, Contribution of cytology, colposcopy, target — and conization to the early diagnosis of precancerous and cancerous lesions of the cervix uteri, 389
——, Gastroscopy and directed — in the diagnosis of primary gastric lymphomas. Report of 16 personal cases, 419
Blue nevus, of the cervix, 95
Body composition, Gross — changes in patients with cancer of the uterin cervix treated with irradiation, 399
Breast, High dose medroxyprogesterone acetate (MPA) treatment in metastatic carcinoma of the breast: A dose-response evaluation, 143
——, Estrogen receptors and post-receptor markers in human — cancer: A reappraisal, 161
——, Problems with the detection of — cancer, 233
——, Patterns of relapse and survival in operable — carcinoma with positive and negative axillary nodes, 241
——, An improved criterion for the evaluation of estrogen receptor binding data in human — cancer, 259
——, cancer in a patient under Levodopa treatment, 267
——, Possible histologic markers for early and late stages of breast cancer, 471
——, Mass screening for early — cancer detection, 479
——, Response to neoplastic antigens in human oncology: Assessment and results of LIF (leucocyte inhibitory factor) test in breast cancer patients, 487
——, Estrogen receptor in human — cancer in relation to tumor morphology and endocrine therapy, 495
——, Protein loss after radical mastectomy as a cause of postoperative hypoalbuminemia, 507
——, Histopathology and epidemiology of breast cancer in the Padua area, 555
Carcinoembryonic antigen, and cancer: A comparative study, 151
Carcinogenesis, Inhibition of 3'-methyl-4-dimethylaminoazobenzene-induced hepatocarcinogenesis by portacaval shunt, 131
——, Bacillus of Calmette and Guérin and 7,12-dimethylbenz(a)-anthracene carcinogenesis in mice, 353
——, Carcinomas of the liver in Osborne-Mendel rats ingesting DDT, 571
Cell line, Behavior of a — derived from a mouse submaxillary adenocarcinoma during the initial 480 days in vitro, 1
Cervix, Blue nevus of the —, 95
——, Prognostic value of lymphography in cervical cancer, 295
——, Contribution of cytology, colposcopy, target biopsy and conization to the early diagnosis of precancerous and cancerous lesions of the — uteri, 389
——, Clinical results of lymphography in cancer of the uterine —. A retrospective study of 542 consecutive, unselected patients, 429
——, Viral particles in cervical condylomatous lesions, 549
Chemotherapy, Ultrastructural alterations of atrial myocardium induced by adriamycin in chronically treated animals, 15

——, Effect of peptichemio upon localization of injected radiolabelled lymphocytes in the lymphatic organs of antigen-stimulated mice, 25
——, Combination — with 1-methyl-1-nitrosourea and cyclophosphamide in metastatic melanoma, 89
——, Enhancement of the antitumor activity of adriamycin by Tween 80, 115
——, High dose medroxyprogesterone acetate (MPA) treatment in metastatic carcinoma of the breast: A dose-response evaluation, 143
——, Morphological and cytogenetical changes in HR-18 rat ascites cells after in vitro 3-[bis(2-chloroethyl)amino]-4-methylbenzoic acid (NSC-146171; IOB-82) administration, 361
——, Intermittent intrathecal methotrexate and fractional radiation (M-IMFRA) plus — in childhood leukemia, 607
——, Comprehensive radiotherapy for advanced Hodgkin's disease refractory to —, 631
Childhood, Malignant ovarian neoplasms in —, 33
——, Pseudo-malignant necrotic histiocytosis of lymph nodes in children. A report of 2 cases, 71
——, Intermittent intrathecal methotrexate and fractional radiation (M-IMFRA) plus chemotherapy in — leukemia, 607
——, Thyroid cancer in —, 649
Cocarcinogenesis, and irritant factors of « Euphorbia esula L. » latex, 99
Colposcopy, Contribution of cytology, —, target biopsy and conization to the early diagnosis of precancerous and cancerous lesions of the cervix uteri, 389
Condylomatous lesions, Viral particles in cervical —, 549
Conization, Contribution of cytology, colposcopy, target biopsy and — to the early diagnosis of precancerous and cancerous lesions of the cervix uteri, 389
Copper, The diagnostic value of serum — levels and other hematochemical parameters in malignancies, 55
Cyclophosphamide, Combination chemotherapy with 1-methyl-1-nitrosourea and cyclophosphamide in metastatic melanoma, 89
Cytology, Significance of ascitic fluid and peritoneal washing — in ovarian tumor diagnosis, 77
——, Cytopathologic manifestation of uterine leiomyosarcoma. Case report, 205
——, in the diagnosis of malignant melanoma, 229
——, Cytogenetic study of pleural effusion, 335
——, Contribution of —, colposcopy, target biopsy and conization to the early diagnosis of precancerous and cancerous lesions of the cervix uteri, 389
——, The cytomorphological diagnosis of malignant histiocytosis, 665
Cytokinetic, analysis at various ages of an ascites tumor after radiation, 463
DDT, Carcinomas of the liver in Osborne-Mendel rats ingesting —, 571
Electron Microscopy, Ultrastructural alterations of atrial myocardium induced by adriamycin in chronically treated animals, 15
——, Hairy cell leukemia: Enzyme-histochemical and ultrastructural investigation of one case, 535
Enzyme, 6-phosphogluconate dehydrogenase, glucose-6-phosphate dehydrogenase, glucose-6-phosphate isomerase, and hexokinase activity ratios in some human tumor cytosols, 579
Epidemiology, Descriptive — of cancer of the larynx in the province of Torino, Italy, 445
——, Histopathology and — of breast cancer in the Padua area, 555
Estrogen receptors, and post-receptor markers in human breast cancer: A reappraisal, 161
——, An improved criterion for the evaluation of — binding data in human breast cancer, 259
——, in human breast cancer in relation to tumor morphology and endocrine therapy, 495
« *Euphorbia esula L.* » *latex*, Cocarcinogenic and irritant factors of —, 99

Experimental tumors, Behavior of a cell line derived from a mouse submaxillary adenocarcinoma during the initial 480 days in vitro, 1
Fc receptor, -like structures on in vitro-cultured human ovarian tumor cells, 587
Gastrointestinal cancer, Parenteral hyperalimentation in patients with —, 407
Gastroscopy, and directed biopsy in the diagnosis of primary gastric lymphomas. Report of 16 personal cases, 419
Hairy cell leukemia, Enzyme-histochemical and ultrastructural investigation of one case, 535
Head and neck, The role of irradiation in the management of — cancer: Analysis of results and causes of failure, 313
Hematochemistry, The diagnostic value of serum copper levels and other hematochemical parameters in malignancies, 55
Histiocytosis, Pseudo-malignant necrotic — of lymph nodes in cihldren. A report of 2 cases, 71
——, Malignant —: A clinicopathologic study of 18 consecutive cases, 211
——, The cytomorphological diagnosis of malignant —, 665
Histochemistry, Hairy cell leukemia: Enzyme-histochemical and ultrastructural investigation of one case, 535
Histologic markers, Possible — for early and late stages of breast cancer, 471
Histopathological classification, Proposal for a new — of the carcinomas of the nasopharynx, 513
Hodgkin's disease, Bronchial involvement by —, 519
——, The value and present indications of staging laparotomy in —, 621
——, Comprehensive radiotherapy for advanced — refractory to chemotherapy, 631
——, A casual finding of primary splenic — in a case of traumatic rupture of the spleen, 639
Human tumors, The diagnostic value of serum copper levels and other hematochemical parameters in malignancies, 55
——, Carcinoembryonic antigen and cancer: A comparative study, 151
——, Can life be the same after cancer treatment?, 345
Immunoglobulin, Intracellular Ig identification on paraffin-embedded solitary plasmacytoid proliferation: A routine method to define the biological nature of plasma cells, 457
Immunology, In vivo resistance and in vitro cellular reactivity against lymphosarcoma cells in immunized mice, 371
Immunosuppression, Effect of peptichemio upon localization of injected radiolabelled lymphocytes in the lymphatic organs of antigen-stimulated mice, 25
Laparotomy, The value and present indications of staging in Hodgkin's disease, 621
Larynx, Descriptive epidemiology of cancer of the — in the province of Torino, Italy, 445
——, The role of radiotherapy in the treatment of metastases at the tracheostoma in cancer of the —, 659
Leucocyte inhibitory factor, Response to neoplastic antigens in human oncology: Assessment and results of LIF (—) test in breast cancer patients, 487
Leukemia, Intermittent intrathecal methotrexate and fractional radiation (M-IMFRA) plus chemotherapy in childhood —, 607
Levodopa, Breast cancer in a patient under — treatment, 267
Liver, Histologic and cytologic — changes in 120 patients with malignant lymphomas, 45
Lung, Bronchial involvement by Hodgkin's disease, 519
Lymphangiomyoma, of the thoracic duct with previously undescribed epithelial tubules, 63
Lymphocytes, Effect of peptichemio upon localization of injected radiolabelled — in the lymphatic organs of antigen-stimulated mice, 25
——, T and B cell populations in platelet donors, 613
Lymphography, Prognostic value of — in cervical cancer, 295
——, Clinical results of — in cancer of the uterine cervix. A retrospective study of 542 consecutive, unselected patients, 429

Lymphoma, Histologic and cytologic liver changes in 120 patients with malignant —, 45
——, Malignant lymphoplasmacytoid —. Clinical and evolutive data, 327
——, Gastroscopy and directed biopsy in the diagnosis of primary gastric —. Report of 16 personal cases, 419
——, Malignant —, Burkitt's type: histologic report of two cases in Italy, 597
Lymph node, Patterns of relapse and survival in operable breast carcinoma with positive and negative axillary nodes, 241
Mammary tumor virus, Bioactivity of male (sperm transmitted) mouse — as influenced by donor, recipient and age at treatment, 103
Mass screening, for early breast cancer detection, 479
Medroxyprogesterone acetate, High dose — (MPA) treatment in metastatic carcinoma of the breast: A dose-response evaluation, 143
Melanoma, Combination chemotherapy with 1-methyl-1-nitrosourea and cyclophosphamide in metastatic ——, 89
——, Cytology in the diagnosis of malignant —, 229
——, Stage I — of the limbs: Assessment of prognosis by levels of invasion and maximum thickness, 273
——, Intravenous administration of BCG in advanced — patients, 437
Mesothelioma, Hairy cell leukemia: Enzyme-histochemical and ultrastructural investigation of one case, 535
——, Diffuse pleural — in Trieste. A survey based on autopsy cases, 565
Methotrexate, Intermittent intrathecal — and fractional radiation (M-IMFRA) plus chemotherapy in childhood leukemia, 607
Mouse, Behavior of a cell line derived from a — submaxillary adenocarcinoma during the initial 480 days in vitro, 1
——, Ultrastructural alterations of atrial myocardium induced by adriamycin in chronically treated animals, 15
——, Effect of peptichemio upon localization of injected radiolabelled lymphocytes in the lymphatic organs of antigen-stimulated mice, 25
——, Cocarcinogenic and irritant factors of « Euphorbia esula L. » latex, 99
——, Bioactivity of male (sperm transmitted) — mammary tumor virus as influenced by donor, recipient and age at treatment, 103
——, Bacillus of Calmette and Guérin and 7,12-dimethylbenz(a)-anthracene carcinogenesis in —, 353
——, In vivo resistance and in vitro cellular reactivity against lymphosarcoma cells in immunized mice, 371
——, Cytokinetic analysis at various ages of an ascites tumor after radiation, 463
Murine leukemia, Homology between cellular repeated nucleotide sequence and a — viral genome, 383
Myeloid leukemia, Osteolysis in chronic —, 171
Myocardium, Ultrastructural alterations of atrial — induced by adriamycin in chronically treated animals, 15
Nasopharynx, Proposal for a new histopathological classification of the carcinomas of the —, 513
Nevus, Comparative aspects of pigmented — in children, youths, and adults, 285
Nucleotide sequences, Homology between cellular repeated — and a murine leukemia viral genome, 383
1-methyl-1-nitrosourea and cyclophosphamide in metastatic melanoma, 89
Oral cavity, Failures (cause and time) of radiotherapy in oral cancer, 193
Osteolysis, in chronic myeloid leukemia, 175
Ovary, Malignant ovarian neoplasms in childhood, 33
——, Significance of ascitic fluid and peritoneal washing cytology in ovarian tumor diagnosis, 77
——, Fc receptor-like structural on in vitro-cultured human ovarian tumor cells, 587
——, Malignant Brenner tumor of the ovary: Case report with a review of the literature, 597

Paravertebral tumors, Relationship between curative radiation therapy of — and the incidence of radiation myelitis, 305
Peptichemio, Effect of — upon localization of injected radiolabelled lymphocytes in the lymphatic organs of antigen-stimulated mice, 25
Plasmacytoma, Intracellular Ig identification on paraffin-embedded solitary plasmacytoid proliferation: A routine method to define the biological nature of plasma cells, 457
Platelets, T and B cell populations in platelet donors, 613
Pleura, Cytogenetic study of pleural effusions, 335
——, Hairy cell leukemia: Enzyme-histochemical and ultrastructural investigation of one case, 535
——, Diffuse pleural mesothelioma in Trieste, A survey based on autopsy cases, 565
Protein loss, after radical mastectomy as a cause of postoperative hypoalbuminemia, 507
Rabbit, Ultrastructural alterations of atrial myocardium induced by adriamycin in chronically treated animals, 15
Radiotherapy, of seminoma of the testis. Report on 129 patients, 183
——, Failures (cause and time) of radiotherapy in oral cancer, 193
——, Relationship between curative radiation therapy of paravertebral tumors and the incidence of radiation myelitis, 305
——, The role of irradiation in the management of head and neck cancer: Analysis of results and causes of failure, 313
——, Gross body composition changes in patients with cancer of the uterine cervix treated with irradiation, 399
——, Intermittent intrathecal methotrexate and fractional radiation (M-IMFRA) plus chemotherapy in childhood leukemia, 607
——, Comprehensive — for advanced Hodgkin's disease refractory to chemotherapy, 631
——, The role of — in the treatment of metastases at the tracheostoma in cancer of the larynx, 659
Rat, Inhibition of 3'-methyl-4-dimethylaminoazobenzene-induced hepatocarcinogenesis by portacaval shunt, 131
——, Morphological and cytogenetical changes in HR-18 rat ascites cells after in vitro 3-[bis(2-chloroethyl)amino]-4-methylbenzoic acid (NSC-146171; IOB-82) administration, 361
——, Carcinomas of the liver in Osborne-Mendel rats ingesting DDT, 571
7,12-dimethylbenz(a)anthracene, Bacillus of Calmette and Guérin and — carcinogenesis in mice, 353
Spleen rupture, A casual finding of primary splenic Hodgkin's disease in a case of traumatic —, 639
Stomach, Gastroscopy and directed biopsy in the diagnosis of primary gastric lymphomas. Report of 16 personal cases, 419
Testis, Radiotherapy of seminoma of the —. Report of 129 patients, 183
Thoracic duct, Lymphangiomyoma of the thoracic duct with previously undescribed epithelial tubules, 63
3[bis(2-chloroethyl)amino]-4-methylbenzoic acid, Morphological and cytogenetical changes in HR-18 rat ascites cells after in vitro — (NSC-146171; IOB-82) administration, 361
3'-methyl-4-dimethylaminoazobenzene, Inhibition of — induced hepatocarcinogenesis by portacaval shunt, 131
Thyroid, — cancer in childhood, 649
Tween 80, Enhancement of the antitumor activity of adriamycin by —, 115
Uterus, Cytopathologic manifestation of uterine leiomyosarcoma. Case report, 205
Virus, Homology between cellular repeated nucleotide sequences and a murine leukemia viral genome, 383
——, The aid of electron microscopy in the diagnosis of osteosarcoma of the bone (case report), 549
